Displacement:	353 long tons
Maximum Speed:	28 + knots
Range:	2,950 nautical miles
Endurance:	five days

Coast Guard Cutter William Trump

FEATURES

- **Enhanced response time with a top speed of at least 28 knots**
- **Stabilized 25-mm machine gun mount and four crew-served .50-caliber machine guns**
- **Fully interoperable command and control systems with Coast Guard existing and future assets and with the departments of Homeland Security and Defense**
- **Standardized over the horizon-IV cutter boat with stern launch capabilities**

PROGRAM DESCRIPTION

The Sentinel-class fast response cutter is the new Coast Guard patrol boat designed for missions including drug and migrant interdiction; ports, waterways and coastal security; fishery patrols; search and rescue; and national defense.

The Coast Guard is acquiring FRCs to replace the 1980s-era Island-class 110-foot patrol boats. The FRCs feature new command, control, communications, computers, intelligence, surveillance and reconnaissance equipment; over the horizon cutter boat deploy-

ment to reach vessels of interest; and improved habitability and seakeeping.

Six FRCs are stationed in Miami, and six are stationed in Key West, Florida. Future FRC home ports include: San Juan, Puerto Rico; Cape May, New Jersey; Pascagoula, Mississippi; Ketchikan, Alaska; Honolulu; Portland, Maine; Atlantic Beach, North Carolina; and San Pedro, California.

Mission execution begins *here*.
